

TCM Forklift Part

TCM Forklift Part - In the international business of material handling, lift trucks play an important role for transporting industrial goods. Initially innovated as industrial vehicles in the 1930s in America, forklifts gained popularity following WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread worldwide.

Initially founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM began constructing lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly manufactures many models of industrial lift trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
